AMAZON BEST SELLERS

Business Analytics & Strategy Report

PREPARED BY	CLASSIFICATION	PERIOD	VERSION
Analytics & Strategy	CONFIDENTIAL	March 2026	v1.0

Comprehensive analysis of Amazon Best Seller performance across 4 global regions and 7 categories. Includes EDA, KPI benchmarking, margin diagnostics and high-impact strategic recommendations modelled on McKinsey & BCG frameworks.

TOTAL REVENUE	TOTAL PROFIT	AVG MARGIN	UNITS SOLD
$1.594M	**$776K**	**53.1%**	**47,200**
10 products · 4 regions	48.7% net margin	Across all SKUs	10 SKUs total

01 / EXECUTIVE SUMMARY

High-level performance overview and key findings

REVENUE LEADER	MARGIN CHAMPION	TOP REGION	EFFICIENCY
Smart Watch	**Phone Case**	**Europe**	**Middle East**
$336K · 21% of total	70.0% profit margin	$692K · 43.4% share	66.7% margin rate

KEY INSIGHTS

- Europe dominates at $692K (43.4%), driven by Smart Watch, BT Speaker and Backpack.
- Phone Case and Water Bottle are margin outliers at 70% and 66.7% — ideal for aggressive scaling.
- Electronics commands 48% of revenue but carries the lowest avg margin (39.3%) — a concentration risk.
- Middle East: only $105K revenue yet 66.7% margin efficiency — the clearest whitespace opportunity.
- Asia ($365K) excels in high-volume, high-margin Accessories — undersaturated in other categories.
- North America ($432K) trails Europe by $260K — significant room for Electronics and Fitness expansion.

02 / EXPLORATORY DATA ANALYSIS

Statistical patterns, correlations and segment diagnostics

Figure 2 — Detailed Analytics: Cost structure, price-margin dynamics and cross-segment correlations

KEY INSIGHTS

- **Price discipline beats premium pricing:** Phone Case ($10) and Water Bottle ($15) lead margins at 70% and 67%. Low ASP + lean cost = best economics.
- **Volume vs Value tension:** Smart Watch leads revenue ($336K) but ranks last on margin (37.5%). Portfolio needs rebalancing toward high-margin SKUs.
- **Electronics ceiling:** At 48% share, Electronics is near organic saturation. Next growth chapter = Accessories + Lifestyle.
- **Region-category silos:** Europe = Electronics/Fashion only; Asia = Accessories/Office only. Cross-pollination is the highest-leverage growth vector.
- **Correlation insight:** Units Sold and Revenue show weak correlation, confirming pricing strategy matters more than pure volume.

03 / PRODUCT PERFORMANCE DATA

Full leaderboard with revenue, profit, margin and volume

#	Product	Category	Region	Revenue	Profit	Margin	Units
1	Smart Watch	Electronics	Europe	$336K	$126K	37.5%	4,200
2	Wireless Earbuds	Electronics	North America	$250K	$100K	40.0%	5,000
3	Bluetooth Speaker	Electronics	Europe	$180K	$75K	41.6%	3,000
4	Backpack	Fashion	Europe	$176K	$80K	45.4%	3,200
5	Gaming Mouse	Accessories	Asia	$150K	$90K	60.0%	6,000
6	Laptop Stand	Office	Asia	$135K	$81K	60.0%	4,500
7	LED Ring Light	Photography	North America	$112K	$56K	50.0%	2,800
8	Water Bottle	Lifestyle	Middle East	$105K	$70K	66.6%	7,000
9	Phone Case	Accessories	Asia	$80K	$56K	70.0%	8,000
10	Yoga Mat	Fitness	North America	$70K	$42K	60.0%	3,500

High Margin (60%+) | Mid Margin (45-60%) | Lower Margin (<45%)

Region	Revenue	Profit	Margin %	Units	Products	Rev Share
Europe	$692K	$281K	40.6%	10,400	3	43.4%
North America	$432K	$198K	45.8%	11,300	3	27.1%
Asia	$365K	$227K	62.2%	18,500	3	22.9%
Middle East	$105K	$70K	66.7%	7,000	1	6.6%

04 / STRATEGIC RECOMMENDATIONS

McKinsey/BCG-style high-impact growth playbook

01

Scale High-Margin SKUs Aggressively

Phone Case (70%), Water Bottle (67%), Laptop Stand (60%): proven unit economics. Increase inventory, boost paid search, expand to 2-3 new geographies. Target: 3x revenue in 6 months at minimal incremental cost.

02

Unlock Middle East — the Highest-ROI Region

Middle East generates only $105K but achieves 66.7% margin. Water Bottle dominates. Introduce Phone Case, Yoga Mat and Gaming Mouse. Projected uplift: +$80-120K revenue with minimal new infrastructure.

03

Defend and Deepen Europe — Your Revenue Engine

Europe at 43.4% is the anchor. Smart Watch + BT Speaker bundle opportunities untapped. Target UK, Germany, France with localized campaigns. Introduce Laptop Stand and Gaming Mouse from Asia playbook.

04

Launch B2B WFH Bundle via Amazon Business

Laptop Stand ($30) + Gaming Mouse ($25) = $55 bundle. B2B buyers drive 30%+ higher AOV. Target IT procurement in Asia and Europe. 500 units/month = $27.5K incremental revenue.

05

Rebalance Electronics Concentration Risk

Electronics = 48% revenue but only 39% margin — lowest of all categories. Redirect 20% of electronics marketing spend to Accessories (63.5%) and Lifestyle (66.7%). Protects margin as Electronics matures.

06

Systematic Cross-Region SKU Expansion

Phone Case is Asia-only; Water Bottle is Middle East-only; Smart Watch is Europe-only. Geographic silos are artificial. A structured 2-3 SKU cross-region test per quarter could add $200-350K annual revenue.

05 / EXECUTION ROADMAP

Priority matrix and 90-day action plan

Initiative	Impact	Effort	Timeline	Owner	Priority
Scale Phone Case & Water Bottle	HIGH	LOW	30 days	Growth	P1
Middle East expansion	HIGH	MED	60 days	Regional	P1
Europe bundle campaigns	HIGH	MED	45 days	Marketing	P1
B2B WFH bundle launch	MED	LOW	30 days	Sales	P2
Cross-region SKU rollout	HIGH	HIGH	90 days	Ops	P2
Reduce Electronics dependency	MED	MED	60 days	Category	P3

06 / STREAMLIT DASHBOARD CODE

Run a full interactive dashboard in under 2 minutes

```
# pip install streamlit plotly pandas openpyxl
# streamlit run amazon_dashboard.py

import streamlit as st, plotly.express as px, pandas as pd

st.set_page_config(page_title="Amazon Best Sellers", layout="wide")
df = pd.read_excel("amazon_best_sellers.xlsx")

# Sidebar filters
region = st.sidebar.multiselect("Region",    df["Region"].unique(),   defau
lt=df["Region"].unique())
cat    = st.sidebar.multiselect("Category",  df["Category"].unique(), default=df
["Category"].unique())
df = df[df["Region"].isin(region) & df["Category"].isin(cat)]

# KPI cards
c1,c2,c3,c4 = st.columns(4)
c1.metric("Total Revenue", f"${df['Total Revenue (USD)'].sum()/1e6:.3f}M")
c2.metric("Total Profit",  f"${df['Profit (USD)'].sum()/1e3:.0f}K")
c3.metric("Avg Margin",    f"{df['Profit Margin (%)'].mean():.1f}%")
c4.metric("Units Sold",    f"{df['Units Sold'].sum():,}")

col1, col2 = st.columns(2)
with col1:
    fig = px.bar(df.groupby("Region")[["Total Revenue (USD)","Profit (USD)"

```

07 / FINAL INSIGHTS SUMMARY

Condensed findings for executive presentation

TOTAL REVENUE	TOTAL PROFIT	BEST MARGIN	TOP REGION
$1.594M	**$776K**	**70.0%**	**Europe**
10 products · 4 regions · 7 cats	48.7% return	Phone Case — 8K units	43.4% revenue dominance

FINAL CONSOLIDATED INSIGHTS

- **Revenue Concentration:** Top 3 products = 48.3% of revenue. Diversification reduces single-SKU risk.
- **Margin-Volume Duality:** Phone Case leads both volume (8K units) and margin (70%). Rare "unicorn" SKU — protect and scale aggressively.
- **Geography Gap:** Middle East + Asia = $470K with only 3 dominant products each. 2-3 proven SKU additions could add $150-250K.
- **Price Discipline:** The 5 highest-margin products all have selling prices under $30. Lean cost structure beats premium pricing.
- **Electronics Ceiling:** At 48% share, Electronics is at organic saturation. Next $500K in growth = Accessories + Lifestyle + cross-region.
- **BCG Portfolio:** Smart Watch = Cash Cow; Phone Case = Star; Water Bottle = Question Mark (underexploited); LED Ring Light = consider repositioning.
